The foregoing question was put to Walter Johnson, who replied:
"No umpiring for me; I'd rather go back to the old farm than attempt to handle the indicator. Umpires have a pretty tough time of it, and I don't envy them."

Walter pays taxes on considerable ands down in Oklahoma, and he hop that some day they will produce. When that time comes, if it ever does, Johnson will be in the front ranks of the "I should worry club."

Umpire Oilie Chill is a little skinny undersized man, who is forced to do all the work behind the bat, as he is tied up with Jack Sheridan, who refuses to handle balls and strikes. Complaint is made that Chill cannot possibly do good work behind a big husky catcher like John Henry, for the reason

that it is impossible for him to follow the ball closely. Be this as it may, Mr. Chill is a cocky little rooster, who refuses to take any back talk and acts as if he had been in the American League for years. Waltuntil Washington fans get a peep at him
